**REQUEST FOR RECONSIDERATION OF PATENT TERM ADJUSTMENT
INDICATED IN NOTICE OF ALLOWANCE
AND STATEMENT OF SUPPORTING FACTS AND DOCUMENTATION
(37 C.F.R. § 1.705)**

1. This is a request for reconsideration of the patent term adjustment indicated in the Notice of Allowance mailed on November 24, 2004.
☒ The issue fee is being paid as set forth in the papers attached hereto.
2. Any patent granted on this application (37 C.F.R. § 1.705(b)(2)(iii)) is not subject to a terminal disclaimer.
3. As to circumstances during the prosecution of this application constituting a failure to engage in reasonable efforts to conclude processing or examination of this application as set forth in § 1.704 (37 C.F.R. § 1.705(b)(2)(iv)):
☒ there were none (37 C.F.R. § 1.705(b)(2)(iv)(B)).
☐ these were as follows (37 C.F.R. § 1.705(b)(2)(iv)(A))
4. The patent term adjustment shown on the Notice of Allowance is "0" days. It is respectfully suggested that the correct patent term adjustment under §1.702 is **221 days**.
5. **37 CFR § 1.705(b)(2)(ii):** The basis on which applicant seeks adjustment is as follows: The enclosed PAIR printout shows an entry of 166 days of Applicant Delay Days, indicating that Applicant was late in filing a Response to the Restriction Requirement dated June 26, 2003.

Applicant submits that this is an incorrect entry on the part of the United States Patent and Trademark Office ("USPTO") and submits the following documentation for proof:

- a. Copy of the Restriction Requirement dated June 26, 2003;
- b. Copy of Applicant's Response that was faxed on July 1, 2003;

- c. Copy of Applicant's fax machine confirmation indicating the Response to the Restriction Requirement was received by the USPTO on July 1, 2004, at 9:17 a.m.

Applicant submits that this is within the "three-month" time limit for response without incurring Applicant Delay days.

Applicant further submits that the date for the USPTO to respond back to Applicant after the July 1, 2004, timely filing of the Restriction Requirement would have been November 1, 2004. The USPTO did not respond until the mailing of the Non-Final Rejection on April 28, 2004, thereby incurring **177 days of USPTO delay days**.

Calculation of Patent Term Adjustment: Based on the evidence provided above, Applicant believes that patent term adjustment for this patent should be calculated as follows:

Subtract 166 days of Applicant delay days, leaving 6 days of Applicant Delay.

Add 177 USPTO delays days to the existing 50 days, totaling 227 USPTO delay days.

227 - 6 = 221 patent term adjustment days to be added to the patent term

6. The fee set forth in § 1.18(e) (\$200.00), required by 37 C.F.R § 1.705(b)(1), is paid as follows:
- ☒ Attached is a check in the amount of \$200.00.
 - ☒ Charge any additional fees required by this paper or credit any overpayment to Deposit Account 16-0605.

Respectfully submitted,

Nicholas F. Gallo

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-18, drawn to a method of making a bonded article, classified in class 228, subclass 112.1.
 - II. Claims 19-22, drawn to a preform for bonding, classified in class 428, subclass 317.1.
 - III. Claims 23-32, drawn to a structural member, classified in class 52, subclass 774+.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the process can be used to bond a sputtering target to a backing plate. The product can be made by cladding or adhesive bonding.
3. Inventions II and III are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different

Art Unit: 1725

process of using that product (MPEP § 806.05(h)). In the instant case the preform can be used to bond a target to a backing plate and the structural assembly can be formed using mechanical joining means such as interlocking members or fasteners.

4. Inventions I and III are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the process can be used to make a brazing foil and the structural assembly can be formed via mechanical joining means such as interlocking members or fasteners.

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one

Art Unit: 1725

or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lynne Edmondson whose telephone number is (703) 306-5699. The examiner can normally be reached on Monday through Thursday from 6:30 a.m. to 5 p.m.

RESPONSE TO RESTRICTION REQUIREMENT

This is in response to the Office Action dated June 26, 2003, in which the Examiner has required restriction between Group I, namely Claims 1-18, Group II, namely Claims 19-22, and Group III, namely Claims 23-32. Applicant hereby provisionally elects with traverse to prosecute the claims of Group I (Claims 1-18) and expressly reserves the right to file divisional applications or take such other appropriate measures deemed necessary to protect the inventions in the remaining claims.

Should the Examiner have further questions or comments with respect to examination of this case, it is respectfully requested that the Examiner telephone the undersigned so that further examination of this application can be expedited.

It is not believed that extensions of time or fees for net addition of claims are required, beyond those, which may otherwise be provided for in documents accompanying this paper. However, in the event that additional extensions of time are necessary to allow consideration of this paper, such extensions are hereby petitioned under 37 CFR § 1.136(a), and any fee required therefore (including fees for net addition of claims) is hereby authorized to be charged to Deposit Account No. 16-0605.

Respectfully submitted,
